PROFILE

I am a Software Engineer and completed my BSIT in Nov 2026 with hands-on experience in AI ML and MERN Stack development (React.js, Node.js, Express.js, and MongoDB). Skilled in building responsive ai web applications, developing RESTful APIs, and managing source code using Git and GitHub. Strong problem-solving abilities with a passion for creating efficient and scalable software solutions.

ACADEMIC PROJECTS

Revolutionizing Digital Learning with AI (FYP)

- Built a responsive and interactive AI-powered learning platform for BSIT students using the MERN Stack (React.js, Node.js, Express.js, and MongoDB) used by 500+ students, increasing engagement 30%
- Developed separate dashboards for 3 user roles (Student, Teacher, and Admin) with role-based functionalities and access controls.
- React.js, Node.js, Express.js, MongoDB, Gemini API

AI ChatBot

- Developed a responsive web-based AI chatbot application using the MERN Stack (React.js, Node.js, Express.js, and MongoDB) used by 100+ students, increasing engagement 30%.
- Integrated 2 external AI APIs, including Gemini and ImageKit, to generate text responses and manage media content.
- React.js, Node.js, Express.js, MongoDB, Gemini API

AI/ML Training — NETSOL through NAVTTC

- Currently undertaking training focused on Artificial Intelligence and Machine Learning.
- Building foundational knowledge and practical skills relevant to AI/ML development.
